Better Features, Better Technology. Best Value

Having excellent performance and longer belt life, woven corrugator belts are widely equipped by the majority of corrugators in the world. As running speed increased continuously, the cardboards need to be dry in shorter period, and pulling is stronger, you really need a tougher belt which absorb and release moisture faster.

Sun Jump SD9.8X is made of cotton, IFDY and synthetic, it naturally absorbs and releases moisture very quickly. Using classic weaving structure with wearproof fibers, and weight up to about 7.5kg/m², that assures longer working life time.

先进工艺 优良品质 最具价值

棉织带（也称作编织带或机织带），由棉纱和合成纤维经重型机器混合纺织而成，能最佳有效的兼顾平衡吸湿透气性能以及稳定耐用性，因此被广泛用于瓦楞纸板烘干传送。星敬SD9.8X棉织带经过持续改良创新，我们改进了经纬纱线的股数及比例，密度达到约7.5kg/平方米，使用更高等级的原材料，棉纱和IFDY能很好的吸湿透气，合成纤维及IFDY具有很好的耐磨和稳定性，既优化了其吸湿透气功能性，同时保证了其稳定耐磨耐用性。编织紧凑而结实，同时我们使用最先进的高温拉力定型机器对输送带做瓦线运行预处理，故我们出厂的每一件输送带相比较普通输送带其几何稳定性更佳，伸缩性达到进口产品标准。
